Summary

I am a proficient front-end developer with over 3 years of hands-on experience in Flutter and React JS, specializing in building responsive and scalable web and mobile applications. Successfully developed and maintained 3+ Flutter projects and 2+ React projects, including complex libraries and SDKs tailored to client needs.

Technical Skills

Languages/Database: Dart, JavaScript, Python, HTML, CSS, SQLite
Framework/Tools: Flutter, Bloc, Getx, ReactJS, Redux, Firebase, Android Studio, FVM

Work Experience

Software Developer, *IOURING Private Limited, Chennai, TN, India* *Jan 2022 - Present*

- Developed and maintained 3+ ***Flutter*** mobile and web applications, including advanced ***SDKs*** and libraries, focusing on trading application integrations and cross-platform compatibility.
- Built and maintained 2+ web applications using ***React***, Redux, and Material UI, ensuring responsive and modern user experiences.
- Applied ***BLoC*** pattern and ***Clean*** Architecture principles to build scalable, testable, and modular Flutter codebases.
- Integrated ***Firebase*** for real-time push notifications, improving user engagement and responsiveness.
- Implemented ***RESTful APIs*** and ***WebSocket*** connections for efficient data exchange and real-time updates.
- Utilized ***SQLite*** with ***Drift*** to optimize local data storage and retrieval across web and mobile platforms.
- Delivered **white-label** solutions from a single codebase, enabling distinct branding for multiple clients.
- Translated ***Figma*** designs into functional, intuitive UIs in collaboration with UI/UX teams.
- Participated in ***Agile*** sprints and contributed to successful, on-time project deliveries.
- **Key Projects:**
    - **NxtOption:**

      Developed and maintained this dedicated options trading platform for its ReactJS web and Flutter mobile counterparts. Contributed features like Strategy Builder, OI, and PCR charts etc. Created SDK and tailored it to different client requirements.
    - **NxtTrad:**

      Contributed to several features and functionalities, including IPO, deep link URL on screenshot detection, Payment gateway, etc. Also maintained the NxTrad admin console built in Flutter Web.

Education

B.Tech in Mechanical Engineering
2016 - 2020
Government Engineering College, Idukki, Kerala, India

Extras
